## Thomas Jefferson National Accelerator Facility

May 29, 2013

### Statement by Jefferson Science Associates, LLC

**Jerry P. Draayer, President & CEO, SURA**  
**Vice Chair, JSA Board of Directors**

Jefferson Science Associates, LLC and SURA, as its majority and administrative member, are excited to welcome PAE, Pacific Architects & Engineers, as our new partners in the management and operations of the Thomas Jefferson National Accelerator Facility.

Through their purchase of CSC/ATG, PAE becomes the new partner joining SURA in the stewardship of this world-class U.S. Department of Energy laboratory. While new director appointments and operating agreement review will take place in the coming days, there will be no changes in the operations of Jefferson Lab, nor impacts to the contractor responsibilities for JSA.

Moreover, we are excited that this new arrangement could represent even stronger capabilities in providing leadership, resources and support to the lab and its scientific mission.

###

*Jefferson Science Associates, LLC is a SURA/PAE company created specifically to manage and operate the Thomas Jefferson National Accelerator Facility (Jefferson Lab) for the U.S. Department of Energy's Office of Science. This nuclear physics user facility enables the international user community to conduct outstanding scientific research.*

*The Southeastern Universities Research Association (SURA) is a consortium of over 60 leading research institutions in the southern United States and the District of Columbia established in 1980 as a non-stock, nonprofit corporation. SURA serves as an entity through which colleges, universities, and other organizations may cooperate with one another, and with government and industry in acquiring, developing, and using laboratories and other research facilities and in furthering knowledge and the application of that knowledge in the physical, biological, and other natural sciences and engineering. For more information, visit [www.sura.org](http://www.sura.org).*
